

Cape Hood

Cape Hood in GraLite® 20 for Full-Brim Hard Cap Front Snap Closure

077-6960-0000

Cape Hood to accommodate a full brim cap and has an additional snap-closure bib on the front extending from under the chin to below the shoulders.

This hood is shown over a hard cap sold separately.

Any asterisk () shown in an Item No. will be replaced with a combination of digits identifying all of the options selected.*

Cape Hoods are available in the shoulder length style. This cape attaches to most hard caps. The elastic front simply slips over the bill of the hard cap. The body of the cape is pulled snugly over the cap which reduces the chances of head or neck exposure from overhead leaks. Some Cape Hoods have a bib on the front with either a snap or hook & loop closure to provide additional coverage and protection. Customized Cape Hoods are available upon request. The hard cap shown in the photo is not included.
